

## REMARKS

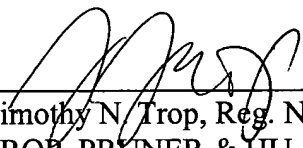

The claims have been amended to make all of the suggested changes. However, claim 11 has been amended to include the subject matter that was believed to be the basis for indicating that dependent claims, such as dependent claim 18, were allowable. In addition, the limitation to a memory card, which was added in the previous response and which the Examiner still found was insufficient to demonstrate patentability, has been removed and replaced as a dependent claim.

None of the cited references teach anything about a battery access door which has the claimed features.

Therefore, the application, as amended, should now be in condition for allowance.

Respectfully submitted,

Date: May 16, 2005
